How To Season Your Adventure Kings Canvas Product

Step 1

- Set up your canvas product as if you were on a camping trip and close all the windows and doors and remove the mattress.

Step 2

- Soak your canvas product with the garden hose - You need to saturate the canvas, so allow at minimum 5 minutes of forceful water to achieve this. To help the water penetrate the canvas you could use a clean sponge and sponge the water onto the canvas. Once all the canvas is totally saturated leave it out in the sun to fully dry.
- Once the canvas is dry repeat this step another two more times.

NOTE:

This process has caused the canvas to contract and expand multiple times. Subsequently the canvas would have now removed any holes caused by the stitching process resulting in the canvas being more water resistant.
